- ❖ Curriculum vitae. (Maximum 2 pages in length)
- ❖ Certified copies of Clinical Assessment Tools
- ❖ Certified copy of official academic transcript, which must include your grading key.
- ❖ Name, relationship and phone number of 3 referees (at least 2 must be professional)

Information Session

To give you an opportunity to meet us, an information session is planned for June 2018.

This session will include a tour and overview of the facility, as well as allowing you the opportunity to ask any questions that you may have.

If you are interested in attending, please RSVP to our Education Facilitators

Julie Plummer at: japlummer@tmhs.vic.gov.au

Lisa Urek at: ljurek@tmhs.vic.gov.au

Acute Care & 24 Hour Urgent Care

Our recently renovated hospital which is situated in Terang, has an Acute Wing consisting of 14 private rooms with adjoining bathrooms. This enables us the opportunity to cater for both medical and surgical patients.

Our Urgent Care Department is always busy with patients attending for various reasons.

Day Surgical Procedures & Diagnostic Procedures

We would like to give the chance to have variety in your day.

Our hospital is very well supported by visiting surgeons and anaesthetists, who are able to undertake a range of surgical and diagnostic procedures, which include regular endoscopy's, general and gynaecological surgery and emergency caesarean section procedures.

General Medicine

Our competent nursing staff and General Practitioners (GP) from Civic Medical, Terang and Terang Medical Clinic attend to a broad range of medical cases within our hospital.

Obstetrics & Gynaecology

At Terang & Mortlake Health Service, our Midwifery team have developed a Midwifery led model of care. This enables us to provide care to new mothers coordinated by our experienced midwives in partnership with our visiting Obstetricians and GPs.

Palliative Care

Palliative care is provided to patients and clients by either within the hospital with our acute nursing staff, or out in the community by our District Nursing Service.

Mt View Residential Aged Care Facility (RACF)

We are very proud of our recently renovated Aged Care Facility. It was purposely built to provide high level residential care in accordance with the Montessori model. The facility consists of 15 beds in private rooms including ensuites.

Community Nursing

Our District Nursing Service offers a wide range of care, treatment and education to both local clients and clients in surrounding townships / districts.

Further information about our services can be accessed at our website:

<http://www.tmhs.vic.gov.au>

The Program

The duration of this program is over 52 weeks.

Graduate Registered Nurses will work in the Acute hospital as well as the Urgent Care Department, your time here will also include a short rotation with our District Nursing Service (Community nursing).

We can also offer you a Graduate Collaborative Program with South West Healthcare as another option. This Graduate Collaborative Program will depend on funding arrangements, including rotations through South West and Mt View.

Intakes

Intakes are conducted each year in February or when AHPRA registration comes through.

Our aim with the Graduate Nurse Program at Terang & Mortlake Health Service is to support and nurture your transition from a novice nurse to a confident and competent registered nurse by giving you every opportunity to experience all areas of health care that we offer to the public.

Our orientation period is conducted over 2 weeks. During this time you will work with your new colleagues as well as our Clinical Facilitators. Julie and Lisa will work with you to put together a program that will best suit your identified training needs.

We offer all staff members ongoing support that includes regular debriefing sessions, attendance to both internal and external study and training days that are relevant to clinical practice at Terang & Mortlake Health Service.

Accommodation

Depending on availability, we may have accommodation available to you that is close to the hospital at a nominal fee.

Orientation

- ❖ There is a 1 day orientation which includes;
 - OH&S
 - Infection Control
 - Knowledge and Skill Assessment
 - Formulation of an education plan and skills practice.
- ❖ First 2 weeks will include supernumerary

Learning

While you are here as a Graduate Nurse, our expectations of you, are that you will undertake self directed learning and self reflective practice. We will encourage and support you to complete the following learning modules throughout the year.

- ❖ Venepuncture
- ❖ Triage
- ❖ Peripheral intravenous cannulation
- ❖ Basic and Advanced Life Support
- ❖ Self Directed Learning
- ❖ Opportunity to combine with South West Healthcare (SWHC) Graduate nurses when you attend 6 paid study days at SWHC during your graduation year.

For your own benefit, all of our graduate nurses are expected to actively participate in internal and external educational opportunities.
